Cube net, 6.0 cm cube

4x4 Rubik's cube

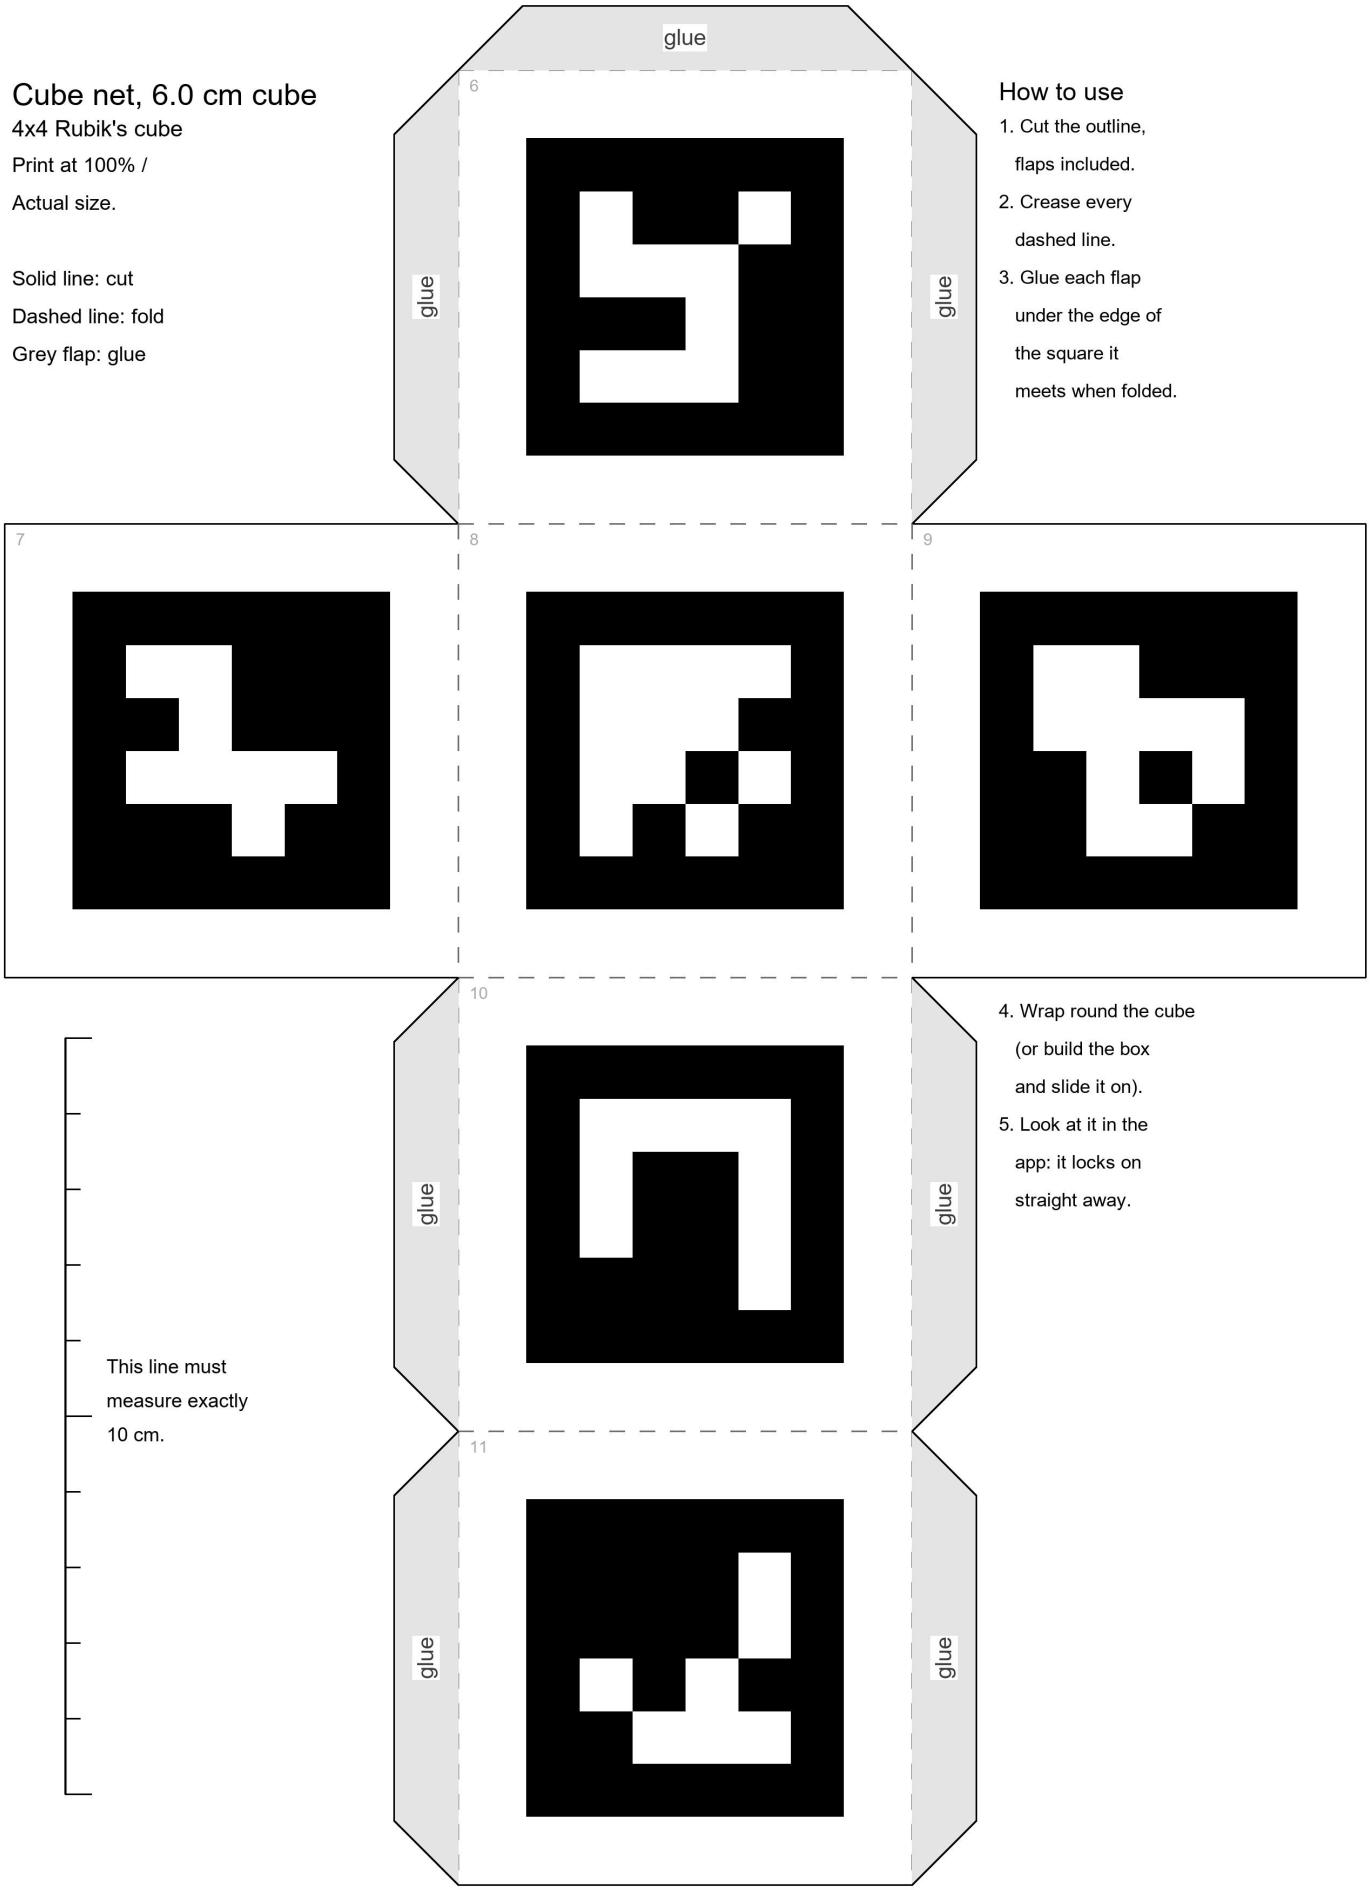

Print at 100% /

Actual size.

Solid line: cut

Dashed line: fold

Grey flap: glue

This line must measure exactly 10 cm.

How to use

1. Cut the outline, flaps included.
2. Crease every dashed line.
3. Glue each flap under the edge of the square it meets when folded.
4. Wrap round the cube (or build the box and slide it on).
5. Look at it in the app: it locks on straight away.
